## Hunting Accident:

### CASE STUDY

- 1 Jan 11
  - Fort Bragg Deer Hunter fatally shot a jogger.
- Lessons Learned:
  - Cardinal rule of firearms and hunting safety:
  - **Never even approach the trigger unless you are 100% sure of your target and what is behind it.**
    - Despite any hunting procedures or rules, you can never be 100% certain who or what may be in the field.
    - Always wear blaze orange and consider other hunters when you are in the field.
  - **You are responsible for every shot you fire and every time your gun discharges.**
    - **Always practice safe gun and ammunition handling.**
    - **Always know your target and what is behind it.**

# Fort Bragg Wildlife

## Hunting Safety:

### 10 Commandments of Firearm Safety

1. Watch that muzzle.
2. Treat every firearm with respect due a loaded gun.
3. Be sure of your target and what is in front and behind it.
4. Keep your finger outside the trigger guard until ready to shoot.
5. Check your barrel and ammunition.
6. Unload firearms when not in use (transport cased and unloaded).
7. Point firearm only at something you intend to shoot.
8. Don't run, jump, or climb with a loaded firearm.
9. Store firearms and ammunition separately and safely.
10. Avoid alcohol or mind / behavior altering medicine or drugs.

# Fort Bragg Wildlife

**Safety:**

## BLAZE ORANGE

- Blaze orange hat and vest (144 square inches chest and back) are required for all hunters from the opening day of muzzleloader season through the last day of any small game hunting with the following exceptions:
  - Early seasons opening prior to Muzzleloader season do not have a blaze orange requirement .
  - Duck and dove hunters may remove blaze orange in their blind.
- Deer hunters in ground blinds must have a blaze orange marker, equal in size to a vest, displayed and visible from all sides.
- Faded blaze orange or camo patterns with insufficient amounts of orange will be rejected at the discretion of the Wildlife Staff .
- After opening day of muzzleloader season, blaze orange is required in archery only areas (IAW state regulation).

# Fort Bragg Wildlife

## Safety:

## MANNER OF TAKE

- No spotlighting.
- No trapping.
- No baiting or hunting over bait.
- No Drive Hunting (defined as one or more moving hunters attempting to flush game to one or more stationary hunters).
- No driving of a motorized vehicle on the firebreaks for the purpose of locating or hunting game.
- No permanent tree stands: Portable tree stand and removable (lagscrew) steps are authorized.
- Tree stand safety harnesses must be used during climb and descent.

**Yes**

**No**

# Fort Bragg Wildlife

## Safety:

## HUNTERS AND TROOPS

# Fort Bragg Wildlife

## Safety:

## HUNTING ON PUBLIC LANDS

Fort Bragg is a Multi-use Federal Property. As with all public land:

- All hunters need to remember that:
  - Regardless of policy, other people in hunting areas may not be wearing blaze orange or any bright clothing.
  - All access to hunting stands or other locations is on a first come, first served basis, each day.
  - Multiple types of hunting may be conducted in the same area simultaneously (Small Game / Dog Hunters and Deer Hunters).
- Hunter Safety and Hunter Ethics are Requirements. Not Options.

# Fort Bragg Wildlife

## Safety:
